Environment

Committed to environment

At APLI PAPER S.A.U. we are committed to ensuring our activities minimize their negative impact on the environment, aiming for maximum safety in our processes installations and services, paying special attention to protecting our staff, partners, customers and society.

Committed to our society

Through selective disposal of waste produced by our facilities, maintenance of our green area and immediate surroundings, respecting the limits established by current regulations on atmospheric and water emissions, and controlling our energy, water and raw material consumption, among other things.

Committed to our partners

Our partners comply with the strictest reforestation policies to obtain paper; we also work with transport agents and managers authorized by the Administration in order to ensure legal management.

Committed to our employees

Through their participation in company environmental awareness activities.

Committed to our products

Our product packaging is manufactured with recyclable material, in line with the 3R's ecological criteria: reduction, reuse and recyclability, adapting our packaging to the product to reduce the amount of waste produced. We also participate in the Spanish and German Green Dot waste management systems, while studying and improving our process in order to reduce their impact on the environment.

Recyclable

The 99% of our products can be recovered and used again after consumption.

FSC®

Forest Stewardship Council®

Forest certification that promotes responsible forest management, not only environmentally but also socially and economically. The FSC® label identifies products that have been made with wood or wood derivatives from forests managed in accordance with this standard.

Check out our range of FSC® certified products.

PEFC™

Programme for the Endorsement of Forest Certification Schemes™

Forest certification that promotes responsible forest management, not just environmentally, but also socially and economically. Products with this label promote sustainable management of forests.

Carbon Trust CO2

Certification that ensures that the product offers a superior performance in carbon emissions through its more intelligent use and selection of natural resources.

Safety, quality and respect for the environment in the manufacturing processes for our products and services are the means by which we aim to achieve our main goal and ensure the prestige of our company in our industry and in the business world in general.

To this end, we comply to the requirements of our integrated system for quality management, environmental and health and safety, whose goals are measured to ensure continual improvement in the system's efficacy.

APLIADVICE

TAPE WITH PP SUPPORT

Very good value for money. PP is a flexible and tough material. According to the microns of film and type of adhesive, it can be a product that is excellent value for money or a very strong product. We only need to increase the thickness and add a strong adhesive.

TAPE WITH ACRYLIC ADHESIVE

The acrylic adhesive is water-based. More ecological. Available with or without noise. Acrylic tape with noise is the standard product, offering good adhesion and excellent value for money. Acrylic noiseless adhesive has excellent quality and is recommended for all types of use.

TAPE WITH PVC SUPPORT

A PVC film gives great consistency to the tape. The PVC material gives the tape a great deal of rigidity and makes it very tough, offering 35 microns for a Premium product. As well as being a noiseless tape.

TAPE WITH SOLVENT ADHESIVE

Doubtlessly the highest quality adhesive made from natural rubber and tree resin. Providing great adhesive power on any surface. Recommended for heavy boxes.

APLIADVICE

PAPER AND CARDBOARD

For these porous materials, the ideal adhesives are white glue, glue sticks and water glue. Solvent-free adhesives, also ideal for school use.

EVA FOAM AND PLASTIC

To efficiently stick plastics and derived products, the ideal glue is silicone or universal glue, as they are tougher. If you need quick drying, you can also try the super adhesive or a hot glue gun.

WOOD, LEATHER AND FELT

For wood, you can use the special wood glue, white glue or universal glue (for models) or contact adhesive for strong attachment. For leather or metal, we recommend contact or silicone adhesive. For felt, the best product to use is textile or universal adhesive.

High quality reproduction. Heat stable and resistant to breakage. Compatible with the most popular printers on the market.

APLIADVICE

HYDROALCOHOLIC GEL

Hydroalcoholic gel strongly disinfectant and effective due to its 70% alcohol content. Cleans and provides total hand hygiene without the need to use water. Manufactured according to anti-viral regulations.

COMPRESSED AIR

Ideal to get to hidden corners. Dirt and dust enter the office and lurk in hidden places. With the compressed air and the tube, you can reach it, dislodging dirt in a keyboard or removing the dust from your computer fan to improve cooling.

WIPES

Your screen in perfect condition. Monitors and screens, due to the electrostatic energy they can emit, are great receivers of dust. To keep your computer, laptop, phone or tablet screen clean, APLI offers wipes in different formats to suit your use.

APLIADVICE

Kraft laid paper

High quality Kraft paper. 70 gsm paper made with top quality natural fibers and 100% recyclable. Very tear-resistant and ideal for packaging or wrapping gifts. Also, excellent for children's murals, handicraft, on stage, etc. You can paint on the paper with tempera or watercolor, as it can effectively

withstand the paint and the water. Colored Kraft paper is tinted in bulk, thus achieving a more homogenous product and minimizing tone differences. APLI presents its range of kraft paper in fantastic displays with elegant designs that will stand out at your point of sales.

Zipper bags, non-sealing bags and adhesive flap bags

Self-sealing bags. Also known as zip bags, secure sealing bags that are easy to handle. Open-close.

Self-sealing bags with reserve. Bags with zip closure and blank space to write.

Non-sealing bags. If you need bags for handicraft or to close with a loop of string, this is your product.

Adhesive flap bags. Ideal if you need a reliable and long-lasting hermetic seal. The adhesive strip seals the bag so it cannot be opened. All the bags are suitable for contact with food.

The best paper for printing photos in color

 Apply to 100% cotton garments. Wash in cold water.

Magic plastic, tattoo paper, glow in the dark labels, magnetic paper... A complete range to create magnets with your favourite photos, design your own invitation cards, personalize key rings or create decorative elements that glow in the dark in children's rooms. Endless possibilities!

Glow in the dark labels

The part that is not printed is the part that glows

Our tip: The glow is recharged easily by placing the stickers under a light source.

The A4 format can be used to make lots of designs and you can cut them out with scissors, obtaining fun stickers that glow in the dark.

Magic plastic

Ideal for customizing key chains and necklaces

Our tip: Make a hole in the design with a paper punch before putting it in the oven; you will then be able to pass a thread through to make a necklace or a ring for a key ring.

Ref. 10331

APLIADVICE

Photo paper

Paper is made of a set of cellulose fibres laid out in a given way. If paper was not so arranged, the ink would set randomly on the paper and printing would be in low definition.

Untreated paper

Treated paper

Frequently asked

1. Which factors should be considered when choosing a photographic inkjet paper?

First, you should know what it is going to be used for, as APLI's catalogue includes over 30 products, each one suitable for a specific use.

The paper has different finishes, depending on what it is to be used for: matt, glossy, satin and photographic. They also come in different sizes.

Resolution

It should be stressed that the resolution of the image (pixels per

inch), which is a characteristic of the image (camera, images off the Internet, scanned photos and so on) is not the same as the print resolution, a characteristic of the printer, which can be modified in its settings. The higher the image and print resolution are, the better the quality of the printed photo.

The grammage

The grammage is the weight per square meter of material, in this pack paper. In general, a higher grammage means greater stability and rigidity. APLI papers are from 90 to 300 grams per square meter.

2. Can APLI paper be used with any type of printer?

APLI paper is fully compatible with all the printers on the market and provide maximum quality in all packs.

3. Can inkjet paper be used in a laser printer?

No, laser technology is based on the heat given off by the printer rollers. Using inkjet paper in a laser printer could cause serious, permanent damage to the printer and the paper.
